WATER! WATER!

The Supply Temporarily Cut Off but to Be Renewed To-Day.

Much anxiety was displayed among water consumers yesterday because the supply of water which had been very short for several days was cut entirely off. A reporter started out to investigate the situation and met with a number of rumors to the effect that the engine had collapsed, given way, and others equally startling. After careful inquiry it developed that the whole cause of the trouble is that both of the suction pipes leading into the river are filled with sand and gravel. A gentleman connected with the works stated to a reporter that the bed of the river had filled up three feet since the pipes were laid. Just beyond their mouth the water is nine feet deep and into this channel the council ordered an extension of the pipes immediately upon purchasing the works.

"Fate has been against us," remarked a councilman yesterday. "The river has been on a rise ever since we made the purchase and it was absolutely impossible for us to avoid the present trouble. Give us three weeks longer and then if there are any defects, let the people kick."

A temporary pipe is being laid and the management anticipates that a full supply of water will be turned on by 9 o'clock this morning.

The City Recordship.

FORT WORTH, TEX., April 20, 1915.

To the Editor of The Gazette.

The election of a city recorder by the council takes place at 2 o'clock to-day. There are several candidates, and each councilman has no doubt been appealed to by their friends.

I wish you would say a good word for Mr. James T. Melton, because it has been urged against him that, although a well-known and highly esteemed citizen, a man of good family, of irreproachable character and refined bearing, he is not a lawyer.

It is not necessary that he should be a lawyer; nevertheless, he is a lawyer, though not now practicing.

Mr. Melton was educated at Cumberland university, Tennessee, where he took both literary and legal honors. He has practiced at the bar of this state, and holds license still to practice before every court in Texas.

Without uttering a word in depreciation of the other candidates, I trust you will support a man who will do honor to the office. Yours respectfully,

A. S. T.

AN APOLOGY FOR A SPRING

The fat man's out in linen pants,
Spring flowers now are blooming;
Green fruit, the seed of cholera plants,
And the base ball season's booming.

All nature dons a sweeter smile,
The youth delights in swimming;
The ice man now is dressed in style,
And his shaggy locks get trimming.

That spring is here no one denies,
All males need lighter raiment,
And as comparison our stock defines,
For your trade we are a claimant.

Railroad Extension--Real Estate--Health--Hotels, etc.

Work on the extension of the Gulf, Colorado & Santa Fe railroad is being pushed vigorously from here, which makes business brisk and prospectors numerous, though real estate is scarcely higher than a year ago. The thousands of people who are discarding patent quack medicines and come and try a course of hot sulphur baths at these noted springs, (God given remedy) invariably get on the road to recovery, and are ever after living advertisements, loud in their praises, particularly of our new hotel, the San Geronimo, corner Fifth and Main streets. Its elegant furniture, wholesome comfort of its beds, convenience for business or pleasure, excellent cuisine, and its popular rate of \$2 per day, which is the secret of the San Geronimo's great success.
